# AVAILABLE CURRICULA

## PRE-ESTABLISHED CURRICULA

With its extensive experience and educational experts, Acreos integrates **turnkey training programs**

**INITIAL  
TRAINING**

**PROFESSIONAL  
CERTIFICATION**

**+100 hours  
of available simulation**

### COMMON MODULES

- Job onboarding
- Maneuverability test in forward/reverse
- Professional scenarios
- Lane keeping
- Intersection handling
- Navigating roundabouts
- Handling intersections on slopes
- Driving on slopes and curves
- Overtaking
- Efficient driving
- Day/night/snow/fog/sunset driving
- Driving & Tachograph Training
- Written Safety & Maneuverability Test (IESM)

### SPECIFIC MODULES

#### CARRIER TRUCK

Docking maneuvers

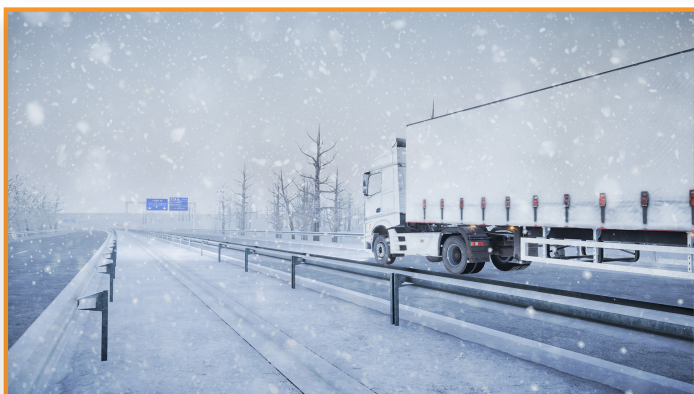

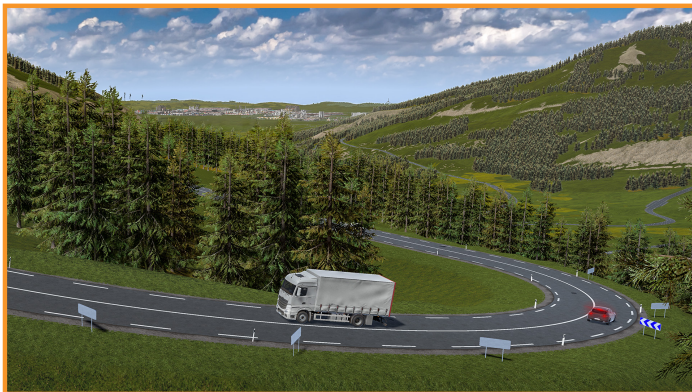

#### CARRIER TRUCK WITH TRAILER SEMI-TRAILER

Docking maneuver  
Coupling maneuvers

#### BUS WITH/WITHOUT TRAILER

# SIMULATION OVERVIEW

OVER 600 EXERCISES TO MASTER VEHICLES

# MORE THAN 20 RISK SITUATIONS

“

Training on an Acreos simulator means offering each trainee a structured and safe learning experience, where mistakes become opportunities to improve before getting behind the wheel. They can practice handling risk situations—bad weather, emergency braking, loss of grip—safely, ensuring better preparedness on the field.

”

# ACREOS BENEFITS

## » OPTIMIZED TRAINING, CENTRALIZED MANAGEMENT

Standardize your training process across all your sites and optimize your resources for efficient management at both small and large scales.

Benefit from **structured training programs** designed according to regulatory certifications for effective skill development of your learners.

## » A PROGRESSIVE AND GUIDED LEARNING APPROACH

With **varied situations** and **intelligent guidance** from the simulator, each trainee follows a structured training path for independent and safe learning.

## » TRACKING AND PROGRESS ANALYSIS

**Monitor** and **optimize** your training with advanced tracking and analysis tools.

Access **precise indicators** on simulator usage and trainee progress, allowing for personalized coaching.

At the end of the course, **individual certificates** are **automatically generated and archived**, ensuring reliable and secure traceability.
